Dear Ms. Belaga and Ms. Carothers:

This letter is intended to fulfill our obligation under 40 CFR 265.56(j) and 22a-449(C)(26)(f)(10) of the Code of Federal Regulations and the Regulations of the State of Connecticut, respectively, to report on any incident requiring the activation of our Contingency Plan.

Facility:

Pratt & Whitney
400 Main Street
East Hartford, CT 06108
(203) 565-3833

Location: K Bldg., Dept. 955, Col. G1-9

Date of spill/incident: 04-04-90 Time: 11:00 a.m.

Material involved: PMC 9805 - hydraulic oil

Quantity: Estimated to be less than 20 gallons

Description or cause of spill/incident: Workers from James T. Kay Construction of Meriden, Connecticut were disconnecting the hydraulic lines for levelator BT 112544 in order to relocate the controls for the levelator. They were not aware of the fact that there was still oil in the hydraulic lines.

Extent of contamination and injuries: Contamination was confined to the floor area in the immediate vicinity of the levelator in an indoor area with no visible floor drains nearby. There were no injuries associated with this incident.

Corrective action taken: The oil was contained using sawdust, and the oil/sawdust mixture was placed into appropriate drums for proper disposal.

The information on this report is correct to the best of my knowledge.

Richard E. Atwood
